

2006 ILDA Member List

This is a sample of proposed changes to ILDA Member categories and listings. Right now, ILDA puts all Corporate members in a single list (see sample at right), even though there are actually three tiers of members. The three dues tiers are based on member-reported billings; the higher a member's earnings, the more dues they pay. For example, members billing US \$1,000,000 or more will pay \$1,000 in dues.

The proposed changes would give additional benefits and exposure to members who pay higher dues, while continuing to list other categories of members. Also, members would be allowed to advertise their level in ads and marketing materials, for example: "ILDA Gold Level Member".

Note that the companies, categories and logos below are for illustration purposes only. Do not read the type — just compare to see how the various categories will be handled.

Gold Level ILDA Members
